

----- cutting edge

file formats: PDF, EPS, TIF, PSD
 colour space: CMYK, greyscale, Pantone
 resolution: min. 250 dpi
 colour appl.: max. 320%
 bleed area: 3 mm

(Printed matter is always created approx. 3 mm larger than it will later be in the final format, to avoid white flashes on the outer edge.
 Therefore, place the print data in 540 x 535.5 mm .
 Make sure that no text is cut away in the margins!)

**Attention: Specification not in original size.
 Please use template.**

delivery: SFTP upload
